*though there are four sections to the Earth's surface It can really be seed in a 2-D way, and i see about 10 places you could go 6 continents, 4 oceans, 2 poles, 1 core so maybe 12 or 13 places you can go...but what's at the earth's core? dinosaurs? and underground city of africans and nerdy whites hoping to save the Earth by having a reserve full of money? But why do animals seem to be above us? what's beyond the ?*
